

Arctic Cat Engine Plant—St. Cloud, MN

Built as an engine manufacturing plant for all-terrain vehicles (ATVs), this 76,800 sf building is designed to be expanded up to 152,400 sf. The facility features 60,800 sf of manufacturing and office space with a 16,000 sf mezzanine level for office expansion. The project was a joint effort of the St. Cloud HRA and St. Cloud Area Economic Development Partnership using JOBZ funding.
